\_2 Gold King Mine DRAFT-data bohan-ss.pub

Sandy, I am confused. The second page of the fact sheet you just sent (\_2 Gold King Mine DRAFT-data bohan-ss.pub) was information already in the first fact sheet which is almost final...I thought. I thought you were working on the #2 Gold King Fact sheet about the data. But then I saw all these changes on page two. I am attaching the pdf of what I thought was the final #1 Gold King Fact sheet.

Joan- here is the current version

I would like to incorporate a short statement regarding interpretation of data (wendy obrien is working on this now) in to the water quality fact sheet as well as what is currently included. Is this in line with your thinking? This info would also be available for you and folks at the public meeting.

I suggest Sandy Stavnes take over the lead on the Fact Sheet/FAQs. I will work with her as we finalize it.

**Subject:** #2 Fact sheet about data

Here is a draft of the next fact sheet which will be all about a the data or anything integrally related. Please take this and feel free to comment and add.

Field personnel. I have sent this to you so you can make us aware of any current issues about the data or questions that people are asking that we can address. Don't worry about thoroughly commenting yet as this is very draft.

I will keep incorporating comments unless someone else wants to take over working with this fact sheet.
